

**\*\*Press Release – Immediate Release\*\***

**‘Yacht Tender Spares’ launch**

Following high customer demand for a more supporting role for our yacht tender and toy clients we are pleased to launch a dedicated part of the company for *Yacht Tender Spares*. We now supply spares for all tender and toy manufacturers, keeping a number of the more common items in stock with the ability to ship worldwide at short notice.

There are no companies who specifically supply the tender market for spare parts and this is a welcome addition to the industry and the smooth running of superyachts. Alongside the spares delivery *Yacht Tender Spares* are also able to offer fitment and engineering services by sending out engineers or assisting in getting repairs done through our extensive worldwide service network.

Company founder Josh Richardson comments *‘supporting clients is of paramount importance to us and the introduction of this new parts service can give clients confidence that they will get the support needed on whatever it is they purchase. We have a dedicated staff member looking after this part of the business able to deal immediately to any enquiries – try us out!’*
