

Tender Care

Superyacht Tenders and Toys provides the industry with a one-stop-shop for all their superyacht toy and tender needs

Superyacht Tenders and Toys is a dealer for all of the popular yacht toy brands and offers competitive prices for all tenders and toys. The team provides invaluable advice and assistance regarding the choice, specification, options, build and delivery for all items and provide ongoing after-sales support for every purchase.

Superyacht Tenders and Toys has particular expertise in new build yacht projects where they ensure that the new yacht gets the right new tenders to match the caliber of the mother ship, meet the owner's requirements, fit well in the garage and make life easier for the crew. They can also ensure that the garage is full of the most up-to-date new toys and safety gear to fit in with the owner's lifestyle and to satisfy the most demanding of charterers. New build tender and toy packages can be managed and gathered together by the team at Superyacht Tenders and Toys and then shipped together to the build yard at a convenient time in the build schedule.

For all tender purchases Superyacht Tenders and Toys can provide invaluable support, project management, progress and photo reports during the build and assistance with integration and fitting upon delivery. This is provided at no extra cost to the client. They can also provide independent inspection services for new build tenders during or at the end of the build casting an expert technical eye over the boat before it leaves the build yard. Custom tenders are growing in popularity and Superyacht Tenders and Toys is involved with several custom tender builds and also has some exciting custom concepts

currently in design including a fully inflatable landing craft and a new 13m RIB Limousine chase boat. Designs are brought to life by a naval architect working closely with the client with input from in-house tender experts. Build yards are then chosen according to the specifics of the design, budget and time requirements and all builds are managed closely by the Superyacht Tenders and Toys team.

Custom toys are also an important aspect of what Superyacht Tenders and Toys does, everything from advising and assisting with the design of custom inflatable slides to building completely bespoke inflatable islands.

Superyacht Tenders and Toys does not only deal with new purchases they also source and sell second-hand yacht tenders and larger toys so can assist with selling your old tenders when the new one arrives. Charter is also an important aspect of what they do and Superyacht Tenders and Toys has a wide range of tenders available to charter for anything from a day to a whole season. These are often available at short notice and can be shipped anywhere in the World. Some of the larger toys can also be rented often with a trainer to come onboard and teach the guests how to use them. A bonus during a busy charter.

Contact the team at Superyacht Tenders and Toys if you have any questions or would like a quote. No order is too big or too small! For more details Tel: +44 (0)2380 016363 or visit www.superyachtendersandtoys.com
