‘A versatile multifunction guest tender’

A versatile tender that can be used for guest transfers and watersports. With several manufacturers offering bespoke tenders from 4m–17m careful design, choice, planning and management is required to ensure the successful completion of the project and that the level of quality of the finished product is as expected.

At Superyacht Tenders and Toys we specialise in creating unique and individual designs to fit the client’s brief and we have successfully completed a number of complex projects with the resulting tender always exceeding clients’ expectations.

We are uniquely positioned to assist in the selection, purchase and build of the best tender to fit the vessel’s and the owner’s requirements and are able to offer independent, unbiased advice. Previous build experience with the relevant yards ensures that we can recommend a shipyard based upon the preferences of the owner. We are regularly in contact with Hodgdon, Vikal, Pascoe, Compass Tenders, Windy, Yachtwerft Meyer, X-tenders, Rib-X, Boston Whaler, Cockwells, Novurania, Dariel, Ribbon and others.
‘The most fun you can have on the water’

For more than eight decades Nautique has been known for not only building the high quality boats, but for delivering unprecedented customer service. That same passion and dedication is still ever present in each and every Nautique. We invite you to discover their passion for the lifestyle, their dedication to performance, and their drive to deliver the ultimate experience on the water.

Boats range in size from 20 – 26 feet and are each tailored for waterskiing, wakeboarding, wakesurfing or a crossover combination of all 3.

We offer choice not compromise matching the best boat to your garage space, cranes, budget and requirements. Coupled with our free Tender Care package this means you get the build, warranty, after-sales and spares support globally and ensures you have the most hassle free and enjoyable ownership.

We are offering a special offer at the moment for anyone buying a new tender from us that we will offer to sell on our brokerage their used one at no charge (normal charge is 8% of sales value), this is proving very popular so please get in contact if you would like to take up this offer.

We can also provide all the watersports kit to go with the boat so as to get you on the water enjoying the boat to its full potential. We have supplied and customised a large number of watersports boats for yachts, and can help in the fitting of lifting points, towing points, making of spreader bars and have also retrofitted a number of diesel engines, personalising these to the individual yacht.
‘Towed or independently used tenders that are not stored on the yacht’

Chase boats are vessels that do not live on the main yacht and often have their own crew. These can be towed, driven separately or berthed in a convenient location. An increasing number of chase boats are being purchased by clients due to restrictions in tender garage space. Having a separate vessel that has everything on board gives a multitude of options to the owner and many come with large cruising ranges.

Chase boats can be highly customised and luxuriously equipped with accommodation, dining, TV and AV options. There is a vast array of choices available with both production models and custom build alternatives on the market.

Previous chase boat projects at Superyacht Tenders and Toys have been in conjunction with Maori, Windy, Novurania, Wally, Van Dutch, X-tenders, Dariel, Pascoe, Wajer & Wajer, Yachtwerft Meyer and others, all depending upon the client’s preferences.
‘Rigid hulled inflatable boat for crew, guests and watersports’

RIBS are increasingly popular as yacht tenders and rescue boats due to their functionality, practicality, durability and sea-keeping characteristics. There is a huge number of manufacturers offering different options from off-the-shelf production models to completely custom-built RIBs.

At Superyacht Tenders and Toys we have the knowledge and experience to assist in the selection and purchase of RIB tenders for yachts giving practical suggestions and options to fulfil the vessel’s and owner’s requirements.

An increasingly popular choice is the D-RIB, which offers increased space inside but then also the rugged RIB characteristics for berthing and coming alongside vessels.

Superyacht Tenders and Toys is a dealer for a number of brands, and can also build custom boats in-house so we are ideally positioned to assist on any enquiry.
The ultimate in luxury, style and comfort; limousines provide a safe way for guests to be transported ashore without getting wet and in complete privacy. Limousines can offer inside and outside spaces with options such as retractable roofs, air-conditioning, massage chairs, fridges, ice makers and complex TV, AV and lighting options and even ballistic protection.

There are a large number of builders specialising in creating tailor-made solutions to reflect the requirements of the owner and the mother ship and careful choice, purchase and project management is required. At Superyacht Tenders and Toys we have worked on a number of top quality limousines for clients and we can assist in the selection, purchase and project management of the best limousine for your vessel. With every sale we offer full project management and client reporting throughout the build ensuring all parties are kept informed of progress and that the quality of the end product exceeds expectations. We can also offer project management, progress reporting and pre-delivery inspections/sea trials as stand-alone services when the vessel is not purchased through us.

We are familiar with selecting the best shipyard for a build depending upon client preferences and budget and are able to provide proposals from all major shipyards to include Hodgdon, Vikal, Windy, Compass Tenders, Pascoe, Serenella, Yachtwerft Meyer, Vripack, Ribbon, X-tenders and more.

Contact us to discuss in confidence and see what we can do for you.
‘Traditional wooden tenders’

At Superyacht Tenders and Toys we can introduce clients to a number of classic yacht tender builders, both the most well-known brands and some of the lesser known options. Classic Tenders are a popular choice by discerning owners and usually based on heritage and tradition these tenders aim to provide a fusion between style and functionality.

Traditionally these boats are not normally set up for use as a superyacht tender or for being used in such a wide variety of environments so expert advice and consultation is highly recommended to ensure that your tender suits the intended use and has the relevant modifications as well as looking as beautiful as imagined. There are several production models available but there are also some providers who will create a completely custom classic tender fulfilling any owner’s dream.

We can provide proposals for the very best classic tenders to include but not limited to J-Craft, Graf, Hodgdon, Riva, Boesch, Cockwells, Comitti, Wajer Osprey, Hacker Craft, Roeboats, Marine Classics and more. We can also custom design and manufacture according to your requirements.
‘Certified Safety Craft’

With safety regulations requiring a SOLAS rescue boat on larger yachts, manufacturers have sought out several ways to satisfy the legislative requirements whilst also producing a practical tender for transport and sport purposes.

There are a number of options available depending on whether the main vessel is under or over 500 gross tonnes. At Superyacht Tenders and Toys we have assisted in the purchase and build of various rescue tenders on a wide variety of sailing and motor vessels and can provide expert advice on any enquiry.

Alongside the supply of the rescue boat we can also supply all recommended safety gear. As well as being dealers or distributors for production brands such as DSB, Zodiac, Vanguard, Castoldi and Narwal we are also able to design, build and certify custom craft.

TENDERS | SPECIALITY
“If the tender that you are looking for does not fit into any of the traditional superyacht categories there are still many options that could suit you”

At Superyacht Tenders and Toys we have a huge amount of experience in custom vessels and workboats. Landing crafts are now common on larger yachts and support vessels for transporting items such as quad bikes, motor bikes, BBQs, provisions and rubbish between the yacht and the shore or for supporting activities such as diving. Landing crafts can be equipped with their own cranes and can be set up to remotely fuel jetskis and similar craft. The large loading areas offer highly usable space for diving, watersports, fishing and other activities. Many clients choose landing crafts for their guest transportation due to the large space and quality of ride, whilst others use them for crew only duties. Luxurious craft can be designed to match the mothership, or very practical, commercial aluminium workboats can be specified according to the brief.
Offering unrivalled experience in the selection, build, management and support of tenders, Superyacht Tenders and Toys are the go-to company for anything yacht tender related and offer the best value tailored and supported packages in the industry.
